## Materials

To stitch 3D peyote beaded stars, you will need the following materials:

- Size 11/0 seed beads
- Beading thread
- Beading needle
- Scissors

## **Basic Peyote Stitch**

Peyote stitch is a simple beading stitch that can be used to create a variety of 2D and 3D shapes. The basic peyote stitch is worked in rows, with each row consisting of a series of beads that are stitched together in a zigzag pattern.

To start a basic peyote stitch, thread a needle with beading thread and tie a knot at the end. String 3 beads onto the thread and arrange them in a triangle. Bring the needle up through the first bead and then down through the second bead. Bring the needle up through the third bead and then down through the first bead. Continue stitching in this manner, working in rows of 3 beads each.

To close the peyote stitch, work the last row in reverse order. Bring the needle up through the first bead and then down through the second bead. Bring the needle up through the third bead and then down through the first bead. Continue stitching in this manner until you reach the beginning of the row. Cut the thread and tie a knot to secure the stitch.

## **3D Peyote Beaded Stars**

3D peyote beaded stars are created by stitching together multiple peyote stitch panels. The number of panels that you need will depend on the size

and shape of the star that you want to make.

To make a basic 3D peyote beaded star, start by stitching two peyote stitch panels in the desired size. To connect the panels, thread a needle with beading thread and stitch through the edges of the panels. Continue stitching until the panels are securely connected.

To add dimension to the star, stitch additional peyote stitch panels to the edges of the existing panels. You can add as many panels as you like to create a star of the desired size and shape.

### **30 Projects**

Here are 30 projects that you can make with 3D peyote beaded stars:

- Earrings
- Pendants
- Charms
- Bookmarks
